- Nearside front tyre worn close to the legal limit

AI BUYING ASSESSMENT

AI BUY SCORE

84 / 100

WOULD I BUY IT?

YES

A well-kept example at a fair price

WHAT I LIKE

- No finance, write-off, stolen or scrapped markers
- Mileage is consistent across every recorded reading
- Priced slightly below estimated market value
- Recent MOT passed with only a minor tyre advisory

WHAT I WOULD CHECK

- Confirm the front tyre has been replaced since the last advisory
- Verify the V5C matches the recorded plate change
- Ask for the full service history to confirm cambelt/service intervals

VALUE ASSESSMENT

- Asking price £15,495 vs estimated value £15,950 — good value.

MAIN CONCERNS

- One historic plate change to verify against documents

OVERALL AI CONCLUSION

This Golf presents as a clean, well-maintained example with no adverse history markers, consistent mileage and a full MOT pass record. The asking price sits slightly below our estimated market value, so it represents good value provided a physical inspection confirms condition.

AI guidance is based on the data available at check time. It does not guarantee mechanical condition — always combine it with a physical inspection.
